Staff at this preschool aim to promote nutritional eating habits in a safe, supportive environment for all children attending this preschool. We believe that early childhood is an important time for establishing lifelong, healthy eating habits and can benefit the children in three ways:

1. Short term: Maximises growth, development and activity whilst minimising illness.
2. Long term: Minimises the risk of diet related diseases later in life e.g. heart disease, strokes, some cancers and diabetes
3. Advice from speech pathologists and dentists indicates that children should be eating crunchy foods.

This food policy has been established after consultation with staff, parents, the “Eat well Be active” / OPAL co-ordinator and a dietician from Noarlunga health services.

Curriculum

Our preschool’s food and nutrition curriculum:

- Is consistent with the Australian Dietary Guidelines for Children and Adolescents in Australia, and the Australian Guide to Healthy Eating;
- Includes activities that provide children with knowledge, attitudes and skills to make positive healthy food choices and learn about the variety of foods available for good health;
- Includes opportunities for children to develop practical food skills like preparing and cooking healthy food;
- Integrates nutrition across the curriculum where possible;
- Is part of the Early Years Learning Framework and National Quality Standards.

The Learning environment

Children at our preschool:

- Have fresh, clean filtered tap water available at all times and are encouraged to drink water regularly through the day;
- Are encouraged to bring their own named drink bottle;
- Eat in a positive, appropriate, social environment with staff who model healthy eating behaviours.

Our preschool:

- Understands and promotes the importance of breakfast for children;
- Teaches the importance of healthy meals and snacks as part of the curriculum;
- Is a breastfeeding friendly site.

Food supply

Our preschool:

- Has the following guidelines for families for food brought from home:
  
  1. **FRUIT TIME** (CHILDREN ATTENDING PRESCHOOL):
    - Parents and carers are asked to supply fruit and vegetables at fruit time to:
      - Provide children with important minerals and vitamins;
      - Encourage a taste for healthy foods;
      - Encourage chewing which promotes oral muscle development;
    
    Fresh fruits, vegetables or pieces of cheese are recommended for fruit time.
    
    We understand that at times families may run out of fruit. A healthy sandwich (multigrain or wholemeal bread) with savoury filling or plain unsalted crackers (e.g. Vitawheat) are acceptable.

    **FOODS UNSUITABLE FOR FRUIT TIME**: Include all packaged foods, cakes, sweets, cheese dippers, eggs and ALL NUT PRODUCTS. We ask that you don’t send yoghurt for fruit time. Cordials and sweetened fruit juices are not for fruit time.
2. **LUNCH CARE PROGRAM:** The Healthy eating guidelines apply to lunch care.
   Parents are encouraged to follow the above guidelines, and ask staff if they have any issues.
   - A healthy lunch box might include a sandwich, fruit, yoghurt, vegie sticks etc. A second sandwich is fine if your child is extra hungry.
   - Some lunch boxes are very large and do not need to be filled up.
   - Please do not include chocolate, chips, lollies or roll ups as we will ask the child not to eat them at kindy and to save them for at home.
   Please ask staff if you are unsure so that your child can follow these guidelines.

Our Kindergarten will ensure a healthy food supply for preschool activities, celebrations and events, strictly limiting availability of high fat, high sugar, or processed foods like chips, pastries, cakes, lollies, crisps and soft drinks to no more than once a term, in accordance with the Healthy Eating Guidelines.

We will display nutrition information and promotional materials about healthy eating, and provide information updates in newsletters.

**Food safety**

*Our preschool:*
- Promotes and teaches food safety to children during food learning/cooking activities;
- Encourages staff to access training as appropriate to the Healthy Eating Guidelines;
- Provides adequate hand washing facilities for everyone;
- Promotes and encourages correct hand washing procedures with children;
- We cook healthy options, including using produce from our kindergarten garden;
- Whenever possible we provide recipes or tastings for families.

**Food-related health support planning**

*Our preschool:*
- Liaises with families to ensure a suitable food supply for children with health support plans that are related to food issues.

**Working with families, health services & industry**

*Our preschool:*
- Has invited parents and caregivers to be involved in the review of our whole of site food and nutrition policy;
- Invites health professionals to be involved in food and nutrition activities with the children;
- Provides information from health professionals to families and caregivers on the Healthy Eating Guidelines through a variety of media such as:
  - Newsletters
  - Policy development/review
  - Information on enrolment
  - Pamphlet in enrolment package
  - Poster displays

**Allergies**

At times there will be children who attend the kindy who have allergies to certain foods. These can be life threatening. We ask that parents respect requests from kindy staff to avoid bringing certain foods into the kindy.

**Please ask to see our Allergy Aware Policy if your child needs a food-related Health Support Plan**
